Hotel Vier Jahreszeiten Kempinski  
Munich, Germany

# IP Summer Course

## **June 30 – July 2, 2022**

Trade Marks, Designs, Copyright & Trade Secrets

## **July 4 – 9, 2022**

Patents, Utility Models & Designs

Our course introduces important aspects of obtaining, enforcing, evaluating and licensing Intellectual Property Rights in Europe, providing you with a summary of the fundamental strategies of patent, design, trade mark and trade secret protection as well as an insight into the practice of Intellectual Property Professionals.

The first part of the seminar deals with trade marks, copyright and the unfair competition law for protecting intellectual property, and the second part is dedicated to the protection of technology and innovations by patents, utility models and designs. This part includes a visit of oral proceedings at the European Patent Office (EPO) and covers issues of patent enforcement, licensing and IP management.

Our courses are aimed at in-house lawyers, corporate patent and trade mark managers as well as other intellectual property professionals.

# Your benefits

In the IP Summer Course you will learn about:

- Options and Strategies of obtaining patent protection in Europe, including a summary of the upcoming Unitary Patent System.
- Recent developments in the patenting of software-related and biochemical inventions in Europe, including specific IP issues relating to pharmaceuticals.
- Important aspects of the prosecution of European Patents as well as opposition and appeal procedures at the European Patent Office, including attending an Official Hearing at the EPO.
- Patent litigation in Europe, with a specific view to Germany, including claim construction and patent invalidation as well as a comparison with the practice in Japan and the USA.
- The usefulness of utility models and design protection, including the EU Community Design.
- Important aspects of licensing, IP management, IP valuation and technology transfer in Europe, including software and e-commerce, with a comparative view to other regions.
- Options and Strategies of obtaining trade mark protection in Europe, including the EU Community Trade Mark.
- The protection of trade dress and legal protection beyond registered rights.
- Means of defence against counterfeits, including antipiracy and border seizure measures.
