

&. Et. And. The form of our name also characterizes our firm, for BOEHMERT & BOEHMERT offers sound expert knowledge and creative solutions. We provide comprehensive consulting services and pay personal attention to the protection of intellectual property for globally operating corporations and mid-sized companies. For inventors, authors, artists, and associations. In Germany and throughout the world.

Past

From the early beginnings in Berlin in the 1930s we have progressively evolved to become one of Europe's leading law firms specializing in intellectual property law, with nine locations at home and abroad.

&

Present

We are experts in intellectual property law. And then we are also scientists, engineers and attorneys, combining industry expertise with sound legal knowledge. Our work is at the forefront of technological developments where innovations and opportunities proliferate.

We can look back on more than eighty years of experience in protecting intellectual property rights. We have set milestones and have been shaping intellectual property case law, accompanying renowned global players for decades with competence and confidence.

### Traditional Values & Modern Approach

Our law firm was founded by the brothers Karl and Albert Boehmert. In the early 1930s Karl Boehmert opened his patent law office in Berlin, thus laying the foundation for our ever-expanding success. In late 1940s the office was relocated and Karl Boehmert decided to re-launch the firm in his home town of Bremen. Together with his brother Albert he quickly succeeded in building up a renowned patent law firm serving mid-sized German clients and increasingly also an international client base. In addition to patent law, trademark law soon became another important area of law for the firm. In 1972 the firm took an important step:

For the first time in the Federal Republic of Germany patent attorneys and attorneys at law united to form a law firm of equal partners. This interdisciplinary cooperation is the cornerstone of our success. Since that time our firm has had its current name: BOEHMERT & BOEHMERT.

Proximity to our clients is a decisive success factor for us. We have therefore established 9 offices, 6 of which are in Germany and 3 at international locations. Close collaboration with our clients and cooperation among colleagues are equally important to us. Linked via a global network, we are locally present for our clients.

*»Our expertise is second to none and sets standards in all areas of IP law, both nationally and internationally. We strive to be your first choice for IP matters in Europe.«*

Prof. Heinz Goddar, European and German patent and trademark attorney and physicist  
BOEHMERT & BOEHMERT

## Reputation

We are continuously expanding our competence in all areas of intellectual property law. Market experts regularly rate us as one of Europe's leading law firms, and our patent attorneys and attorneys at law are regularly given top ratings.

&

## Mission

As a result of our legal expertise, extensive experience and broad knowledge we are sought-after consultants in all areas of intellectual property law. We focus on personal service and long-term consulting for our clients.

»BOEHMERT & BOEHMERT stands out for its *professional team of top segment lawyers with excellent service level and very personal connection to clients.*«

Legal 500

### **Experience & Expertise**

At BOEHMERT & BOEHMERT knowledge never grows stale. Both as lecturers and through regular exchange of information and ideas within our firm, with clients, colleagues, judges and high-ranking government and patent office officials around the world we are always at the forefront when it comes to shaping the IP system and its application for the benefit of our clients.

### **National & International**

We deploy interdisciplinary teams at multiple sites, always at the ready for our domestic and multi-national clients. We have built a close-knit network of selected partner law firms in almost every country around the globe and continuously exchange information and ideas.

### **Legal Experts & Technologists**

Our success is based on the close cooperation in our teams between our attorneys at law and patent attorneys. Our scientists, engineers and legal experts find tailor-made and creative solutions for our clients' needs. In so doing we have often contributed to shaping case law and generating landmark decisions.

## Effective & Efficient

We distil the essential questions from complex situations and provide clear answers that bring proceedings efficiently to a successful close. In cases of conflict we seek the most cost-effective solution for our clients. As a matter of course, this also includes avoiding and resolving disputes, mediation and arbitration.

## Corporations & Inventors

Our clients come from all industry sectors where innovation takes place, be it mid-sized companies, large global corporations, independent inventors, teams of scientists, renowned international stars or start-ups, in the high-tech industry or in the entertainment business. We understand the individual requirements of our diverse clients and assist them in establishing and maintaining their economic freedom of action.

## Knowledge & Transfer

We are always striving to be among the best. To achieve that goal, we share our long-standing experience with our employees and constantly offer professional training. Many of our attorneys are lecturers at renowned universities in Germany and abroad. They make important contributions to scientific research and to the development of case law. We also regularly offer courses for our clients, enabling them to optimise and adapt their IP strategy.

*»We're happy to have found  
BOEHMERT & BOEHMERT.  
They speak our language.  
Their client service is excellent  
and all procedures are presented  
in a transparent and  
straightforward manner.«*

Ad Smeelen, Head of Patent Division, IAC Group

## Motivation

We offer consulting services to our clients across all lines of business and in all areas of law relevant for protecting intellectual property. We cover all natural and engineering sciences for traditional and modern fields of business throughout the world, including adjacent areas such as IT law and data protection.

&

## Realization

We identify with our work and act with absolute conviction. Relationships with our clients are at the highest level, professionally and personally. Our patent attorneys and attorneys at law work together across multiple locations and are part of a global interdisciplinary network of experts, enabling us to continuously set new standards on the national and international level.

»Our patent attorneys are renowned experts in numerous technical and scientific fields. The continuous exchange of ideas and close-knit cooperation in our integrated and interdisciplinary teams of patent attorneys and attorneys at law enable us to deal with all issues in the areas of patent infringement, licensing and patent monetization in a comprehensive and highly efficient manner.«

Dr. Michael Rüberg, LL.M., Attorney at law (Germany)  
BOEHMERT & BOEHMERT

We represent our clients when it comes to registering intellectual property rights and in legal disputes, including with regard to patents, trademarks and designs, copyright law, antitrust law, competition law and in all adjacent legal areas. Another important part of our services is consulting in strategic structuring, enforcing and monetizing patent portfolios and structuring patent departments, in employee invention law, licensing or cooperation negotiations and in

patent valuations. We are always striving to provide outstanding service, on a professional and personal level. Our leitmotifs are pragmatism, reliability and team spirit. For us, consulting is a matter of trust – and this is reflected in our long-term client relationships.

*»BOEHMERT & BOEHMERT's patent prosecution ability is the stuff of legend in Germany; everyone in the market knows that the venerable name stands for top filing quality, across a tremendous bandwidth. [T]he firm has further built the reputation of its litigation practice, in doing so creating a firm with simply outstanding capabilities on both sides of the contentious divide.«*
